

Product Overview

Nationwide 358 Prison Mesh is our highest form of security mesh fencing.

The panels have small apertures which prevent foot and finger holds, making it truly anti-climb with excellent visibility, allowing for CCTV and security patrols, as well as excellent resistance to vandalism.

Our 358 Prison Mesh system is extremely robust and features Anti-Cut technology to prevent and deter attacking internally or externally.

Features

- Secure & Discreet**
 A superior system for providing security where a discreet visual impact on the immediate environment is essential.
- Anti-Climb Panel**
 358 Prison Mesh has apertures of 76.2 x 12.7mm which prevent finger or feet hold to prevent climbing.
- High Security Features**
 This is one of the most secure fencing systems on the market. Commonly used (as the name suggest) to secure Prisons due to its high security features.
