

Product Overview

The Nationwide Aspen Bin Stall is one of our most popular Bin Stalls we provide due to the aesthetically pleasing design. It is constructed from a galvanised box section steel frame and finished in a tanalised timber board. It offers security and privacy away from an undesired area.

This has been installed in schools, factories and residential housing developments. The perfect option for all Bin Shelter requirements.

Features

- **Galvanised Steel**
The shelter is constructed from galvanised box steel for added strength and durability.
- **Tanalised Timber**
All timbers are tanalised treated with a 20 year guarantee.
- **Gates**
All bin stalls come with matching lockable gates.

Suitable For

- **Factories**
- **Schools**
- **Residential Developments**
