

Product Overview

Nationwide Profile V Mesh fencing system is designed and developed to meet applications where moderate levels of security are required.

A cost effective and visually appealing solution, incorporating horizontal pressed beams, further enhancing the rigidity of the panel. Ideally suited for perimeter security projects such as retail, commercial, industrial and educational applications.

The profiled welded steel wire mesh panel system offers a moderate level of security and is fixed to SHS (Structural Hollow Section) posts with brackets and anti tamper security bolts.

Features

• Cost Effective

This is one of the most cost effective fencing systems on the market. It proves excellent value for money while offering secure & pleasing boundaries.

• Secure Features

All panels are fixed using Anti Tamper fixings. If any panels are damaged they can be quickly replaced without effecting the rest of the fence line.

• Quick Installation

Due to the 3 metre centres this system can be installed quickly to avoid any disruptions.

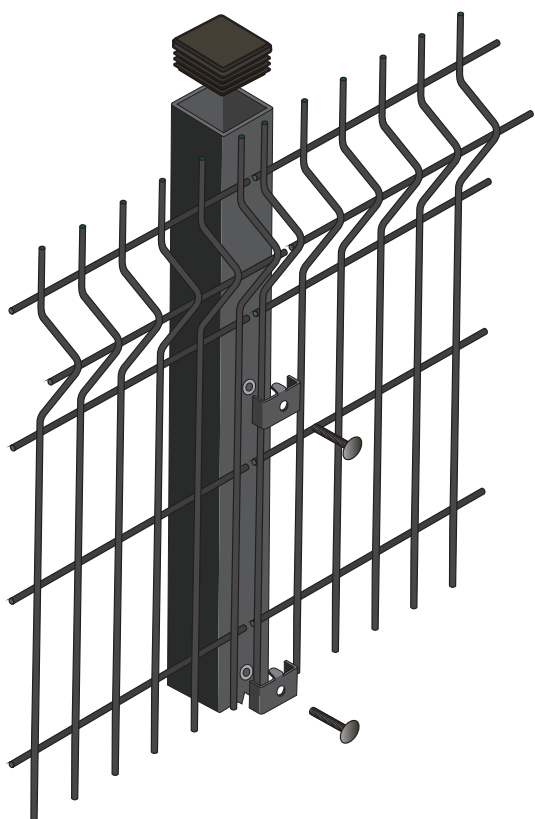

Technical Specification

Fence Height	Panel Size	Post Centres	Post Size
1200mm	1230x3000mm	3000mm	60x60mm
1500mm	1530x3000mm	3000mm	60x60mm
1800mm	1730x3000mm	3000mm	60x60mm
2000mm	1930x3000mm	3000mm	60x60mm
2400mm	2330x3000mm	3000mm	60x60mm
3000mm	2960x2500mm	2500mm	60x60mm

*Available as standard in Green RAL 6005. Black RAL 9005 and other colours are available.
